

H. Glossary

Term	Definition
Accountability	The responsibility of public sector entities to achieve their objectives of delivering reliable financial reporting, effective and efficient operations, compliance with applicable laws, and reports to interested parties.
Accrual basis of accounting	The effects of transactions and other events are recognised when they occur (and not as cash or its equivalent is received or paid) and they are recorded in the accounting records and reported in the financial statements of the periods to which they relate.
<i>Auditor-General Act 2009</i>	An Act of the State of Queensland that establishes the responsibilities of the Auditor-General, the operation of the Queensland Audit Office, the nature and scope of audits to be conducted, and the relationship of the Auditor-General with parliament.
Australian accounting standards	The rules by which financial statements are prepared in Australia. These standards ensure consistency in measuring and reporting on similar transactions.
Australian Accounting Standards Board (AASB)	An Australian Government agency that develops and maintains accounting standards applicable to entities in the private and public sectors of the Australian economy.
Capital expenditure	Expenditure to acquire assets or improve the service potential of existing assets that are capitalised to the balance sheet (which means that the cost of the assets can be allocated over the years for which the asset will be in use).
Controlled entities	Entities for whom another entity dominates decision-making, directly or indirectly, in relation to the financial and operating policies of another entity so as to enable the controlled entity to operate with it in achieving the objectives of the controlling entity.
Deficiency	When internal controls are ineffective or missing, and are unable to prevent, or detect and correct, misstatements in the financial statements. A deficiency may also result in non-compliance with policies and applicable laws and regulations and/or inappropriate use of public resources.
Depreciation	The systematic allocation of a fixed asset's value as an expense over its expected useful life, to take account of normal usage, obsolescence, or the passage of time.
Emphasis of matter	A paragraph included with an audit opinion to highlight an issue of which the auditor believes the users of the financial statements need to be aware. The inclusion of an emphasis of matter paragraph does not modify the audit opinion.

Term	Definition
Going concern	An entity that is a going concern is expected to be able to pay its debts as and when they fall due, and to continue to operate without any intention or necessity to liquidate or wind up its operations.
Modified audit opinion	A modified opinion is expressed when financial statements do not comply with the relevant legislative requirements and Australian accounting standards and, as a result, are not accurate and reliable.
Net assets	Total assets less total liabilities.
Net debt	Total borrowings less cash.
Qualified audit opinion	<p>A type of modified opinion issued when the financial statements as a whole comply with relevant accounting standards and legislative requirements, with the exceptions noted in the opinion.</p> <p>These exceptions could be the effect of a disagreement with those charged with governance, a conflict between applicable financial reporting frameworks, or a limitation on scope that is considered material to an element of the financial report.</p>
Significant deficiency	A deficiency, or combination of deficiencies, in an internal control, that requires immediate remedial action.
Unmodified audit opinion	An unmodified opinion is expressed when financial statements are prepared in accordance with the relevant legislative requirements and Australian accounting standards.
