F. Entities not preparing financial reports

For each state public sector company, other than government owned corporations, the board of directors considers the requirements of the *Corporations Act 2001* to determine whether financial statements need to be prepared. The board must revisit the assessment every three years or whenever a significant change occurs.

When entities are part of a larger group and are secured by a guarantee with other entities in that group (that they will cover their debts), Australian Securities and Investments Commission allows them to not prepare a financial report. In addition, dormant or small companies that meet specific criteria under the *Corporations Act 2001* are not required to prepare financial statements. They appear in Figure F1 as 'non-reporting'.

Accordingly, the Auditor-General will not issue audit opinions for the following controlled public sector entities for 2020, as they were not required to produce financial statements.
